

# MEDICINE FOR THE EARTH GATHERING

Presented by Karen Rice King and Roxanne Roberts

The purpose of this gathering is to help us understand and demonstrate how we effect our environment, the foods we eat, the air we breathe and the water we drink, by transmuting the toxins within us and around us. As we learn to change our internal chemistry, transfiguring into our Divine Source, and bringing this through our very being, we have a transformational effect on our environment. This work is based on the book with the same title by Sandra Ingerman. Please check out [www.MedicineFortheEarth.com](http://www.MedicineFortheEarth.com)
