

DOWSING AND EARTH ACUPUNCTURE

2-Day Training Featuring Karen Rice King, Master Dowser

Sponsored by Brooke Medicine Eagle

FlowerSong Garden Sanctuary in Loomis, WA

July 28-29, 2012 (10:00 a.m. – 5:00 p.m. each day)

TRAINING: *During the weekend you will learn how to “assess” the land in order to make corrective changes to the energy fields. The 3 major grids of negative stress include:*

1. Geopathic grid of earth energies such as imbalanced mineral content in soil, underground running water, rock strata, heavy metals in water supply, and radon.
2. Hartmann grid from all the man-made energies of electrical surges, radar, sonar, microwaves, and cell phone towers.
3. Personal grids and interferences unique to the owners of each property.

Throughout the training, you will gain hands-on experience of diagnostics, flagging the 3 grids, and installing the copper rods to correct along negative lines. Once a safe zone of tensor energy has been created, you will retest the property and discover for yourself that the building and the land are indeed “stress free.”
