

What is Dowsing?

“Dowsing can be described as divining for something that is desired. Most people consider dowsing to be a search for water, and this is how the whole field began thousands of years ago.” (From **Dowsing for Beginners** by Richard Webster)

What are the causes of Geopathic Stress?

Natural radiations, which rise up through the earth, are distorted by weak electro-magnetic fields created by subterranean running water, certain mineral concentrations, fault lines and underground cavities. It has been scientifically proven that the wavelength of the natural radiation disturbed in this way becomes harmful to living organisms.

What are Hartmann lines?

“The entire earth is threaded with an invisible grid of Hartmann lines. They appear every 6-8 feet. They are named after the German medical doctor named Ernst Hartmann. If your bedroom or work area lies over these lines, there is a good chance you have serious health problems. Heart attack victims often sleep on a Hartmann line. So do insomniacs.”(From Sam Biers’ HEALTH DISCOVERIES NEWSLETTER, Issue #25)

Who is most endangered by these stress lines?

People who are “sensitive”, those who are already ill or weak and lacking in energy. For example, anyone who has had an auto accident or surgery. It can help anyone, really. Like those who are involved in high performance sports. And of course, those who work on computers and telephones in dense electro-magnetic environments. Children, babies and pets have not been excluded from these studies. Babies are at risk for healthy growth, concentration and ability to learn.

The Bottom Line!

Get your property tested by a qualified and knowledgeable dowser first. Once it has been determined that you have dangerous levels of these stress lines intersecting in your home or office, they can be removed. A specially trained Dowser will install copper L-rods around your property to create **safe zones**. Then family and business matters flow more harmoniously. Health and psychological challenges can be relieved more easily. As this treatment becomes more effective, there is no end to the possibilities. Think about what you want in your life! You can make it happen!
