Pendulum Dowsing for Doubters!

Dates: 4 Wednesday Evenings, March 4, 11, 18 and April 1, 2015

Time: 6:30 pm - 8:30 pm

Place: Boulder Acupuncture Clinic, 2299 Pearl Street, Suite 204,
Boulder, CO 80302 (the Whittier Square Building)

Description: Over the years as a Master Dowser, I've heard people — even those in my paid apprenticeship program for Earth Acupuncture — say they “*don't trust*” using their pendulums. This class is designed to make sure you will trust your pendulum at least 99% of the time! We will systematically work on the *trust* issue and use Richard Webster's *Dowsing for Beginners* as our workbook. You will gain exposure to map dowsing, dowsing for lost people or things, dowsing for water, dowsing for health, and dowsing for what is wrong with your car! Bring all of your pendulums, if you wish, and I will also have some for sale. You will go home knowing how to use dowsing rods and pendulum for your “yes and no” answers. No previous experience is required.

Cost: \$333, includes the book *Dowsing for Beginners*, by Richard Webster; Dale Olson's fabulous spiral bound book, *Pendulum Charts*; and a set of your own copper dowsing rods (over \$40 total value).

Register: Pre-registration required by Feb. 20, by cash, check, or credit card. Call Karen at [303.665.0175](tel:303.665.0175) or email Karen@karenriceking.com. The workshop is limited to only 6 people, so you will receive lots of personalized attention.
