Pendulum Dowsing and Earth Acupuncture Training Lafayette, CO - Oct. 5-6, 2013

Learn the history of dowsing and practice dowsing the property. You will identify stress caused by high mineral content in the soil, underground running water, rock strata, and heavy metals in the water supply, as well as stress from electronic devices, electrical surging, radar, sonar, microwaves, power lines, and cell phone towers. You will then install copper rods in order to reduce these stressful energy fields, resulting in greater health and well-being. You will also learn about the scientific Medical Sleep Study using Earth Acupuncture to improve sleep issues in adults. Discover if you qualify to participate in the study!

Drumming & Journey Circle

You will also practice journeying, the way our Ancestors spoke with God/Goddess for answers to questions for a better existence. Join us and experience the healing and magic of drumming with others, and the bonding and support of the group as community.
