**WORKSHOP: SATURDAY, April 21, 2018 @ 10:00 AM to 5:00 PM**

**HOST:** Cheryl Coffey, 970-596-5239 or [Gunnisoncoach@live.com](mailto:Gunnisoncoach@live.com) for directions.

**FOOD:** Snacks and beverages included in cost. One hour lunch break on site (BYO lunch)

**CONTENT:** You will learn how to dowse the property for geopathic and Hartmann stress lines, and install copper L-rods in order to reduce stressful energy fields. Clients who have had their homes dowsed and cured by Karen say that their space feels "lighter and cleaner." They report they sleep better and experience more harmony and wellness of spirit, health, and finances. You will also learn to dowse with a pendulum and work indoors in pairs through exercises in addition to outside work. Please dress appropriately.

**YOU'LL TAKE HOME:** Training manual and bibliography; 3 pairs of dowsing L-rods; pendulum with laminated pendulum chart; and Karen's article on *The Weird History of Dowsing*. Books: **In the Mind of A Master** by Slim Spurling and Susan Anderson will be available for \$20.

**COST:** \$200 per person. This workshop may be taken as Professional Training. Pre-registration with Karen is required, so contact her at 303-665-0175 or [Karen@KarenRiceKing.com](mailto:Karen@KarenRiceKing.com), as soon as possible as space is limited. At the workshop, if you are doing well and think you will want to do your own home to save a lot of money, Karen can order your rods for you and have them sent to you all ready to install. Average homes use 120 pair of rods and cost \$1 per rod. She will be in the area for consultations and testing your property for \$50, which is applied to either the workshop or to the installation. Also, if you decide after the workshop that you would rather have Karen do your home with her trained apprentices, then you will get a discount cash price for the installation of 75 cents per square feet of living space including the attached garage. You will receive a professional receipt to give to your accountant as many take an installation off their taxes. She is willing to return later in May and throughout the season to work with everyone who desires her expertise.
